

Exploring the potential of an underutilized legume [*Lablab purpureus* (L.) Sweet] for Mediterranean agroforestry

Patrícia Vidigal*, Filipa Monteiro, Brigitte L. Maass & Wanda Viegas
*pvidigal@isa.ulisboa.pt

The presentation consists of 21 slides, each with a number in the bottom-left corner and a star icon in the bottom-right corner. The slides are organized as follows:

- Slide 1:** Exploring the potential of an underutilized legume [*Lablab purpureus* (L.) Sweet] for Mediterranean agroforestry. Includes a diagram of agroforestry systems.
- Slide 2:** Agroforestry systems. A diagram showing the integration of trees and crops.
- Slide 3:** Population distribution | Portugal. A map of Portugal showing population density and the distribution of *Lablab purpureus*.
- Slide 4:** Regions most prone to agricultural marginalization. A map of Portugal highlighting marginal regions.
- Slide 5:** Traditional Olive Orchards. Photos of olive orchards and a diagram of the agroforestry system.
- Slide 6:** Projections of future changes in climate. A diagram showing temperature and precipitation changes.
- Slide 7:** Consequences. A diagram showing the impact of agroforestry on soil and water.
- Slide 8:** POTENTIAL SOLUTION | Agroforestry systems. A diagram showing the benefits of agroforestry.
- Slide 9:** Lower land management with a specialized crop such as *Lablab purpureus*. A diagram showing the plant's characteristics and its use in agroforestry.
- Slide 10:** Origin and diversity. A world map showing the origin and diversity of *Lablab purpureus*.
- Slide 11:** Multi-purpose uses. A diagram showing the various uses of *Lablab purpureus*, including forage, green manure, and wood.
- Slide 12:** Worldwide distribution and suitability. A world map showing the distribution and suitability of *Lablab purpureus*.
- Slide 13:** Characteristics that we look for. A diagram showing the characteristics of *Lablab purpureus* that are suitable for agroforestry.
- Slide 14:** Characteristics that we look for. A diagram showing the characteristics of *Lablab purpureus* that are suitable for agroforestry.
- Slide 15:** Agroforestry systems. A diagram showing the integration of trees and crops.
- Slide 16:** Agroforestry systems. A diagram showing the integration of trees and crops.
- Slide 17:** Agroforestry systems. A diagram showing the integration of trees and crops.
- Slide 18:** Agroforestry systems. A diagram showing the integration of trees and crops.
- Slide 19:** Hypocitrus bean. A diagram showing the characteristics of the hypocitrus bean and its use in agroforestry.
- Slide 20:** Agroforestry systems. A diagram showing the integration of trees and crops.
- Slide 21:** Exploring the potential of an underutilized legume [*Lablab purpureus* (L.) Sweet] for Mediterranean agroforestry. A diagram showing the benefits of agroforestry.
